Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/3/06 has been entered.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: applicant's arguments filed 4/3/06 with regard to LUSSIER are convincing. Support for the amendments made 4/3/06 is found in the originally filed specification on page 4 (raw plant product), 21 and 24 (obtaining samples from a customer), and 28 (processing data). The prior art of PANIGRAHI et al. (US 6,851,662) teaches and claims a method of analyzing raw plant samples using near IR imaging, comparing to an "index" (normalized data points) and selecting/indicating a raw plant product for processing. However, as the plants of PANIGRAHI are processed in the field, PANIGRAHI neither teaches nor fairly makes obvious obtaining a samples of plant product from a customer, nor does PANIGRAHI teach selecting a plant product which would, when processed, result in a "uniform quality" end product.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1, 2, 5, 7-9, 50 and 51 are allowed.
